

Government Affairs Committee Report – March 2003

- ?? If you have not written your OSHA letter, please do so -- It does not matter that the 'deadline' has passed -- We must FLOOD OSHA with letters to reverse their 12/31/03 mandate for fit-testing. You sit back, you fit-test. National APIC is very busy working on this, but need the grass-roots support. Information for letter writing and letter template are still available at [www.apic.org](http://www.apic.org) and [www.dfwapic.org](http://www.dfwapic.org)
- ?? Nothing has been adopted as "final" in the Texas Register that will affect our IC practice for Jan or Feb 2004

Reported, Patti Grant  
DFW-APIC  
GAC Chair, 2004
