X	Date Filed	Action	Title/Ch./Rules/SB /HB	Topic / Comments
	12/2/19	Adopted	25 TAC §§200.1 - 200.6	Rule amendment to comply with S.B. 384. The new law alters the list of HAIs that health care facilities must report to DSHS by removing the language outlining the specific medical procedures required for HAI reporting by facility type, and replacing it with a requirement for all health care facilities to report the list of HAIs that the CMS require facilities participating in the Medicare program to report. These changes have the effect of aligning state reporting requirements with federal CMS reporting requirements. In reference to NHSN, the rule eliminates the wording "or its successor."
	3/29/19	Adopted	25 TAC §133.50	Requires that a hospital provide a patient the opportunity to designate a caregiver to receive aftercare instructions on admission or before the patient is discharged or transferred to another facility. Also outlines the hospital's responsibility to document information, in the patient's medical record, regarding the designated caregiver or the patient's declination to designate a caregiver.

	1/18/19	<i>Signed by Governor</i>	S.B. No. 384	<p>Effective 9/1/19. For HAIs occurring on or after 1/1/2020 Expands what HAIs must be reported by hospitals and ambulatory surgical centers to the Texas Department of State Health Services. A hospital or ambulatory surgical center must report each HAI to the Texas Department of State Health Services regardless of the facility's participation in Medicare. The legislation would also require the pathogen to be identified if the infection is laboratory confirmed. https://capitol.texas.gov/BillLookup/Text.aspx?LegSess=86R&Bill=SB384</p>
