|          | APIC Board Goes to Capitol Hill  |  |  |  |  |
|----------|--|--|--|--|--|
| 10/11/23 | On October 10, APIC's Board of Directors had its annual Lobby Day on Capitol Hill. Following their           |  |  |  |  |
|          | Board meeting at APIC headquarters, 12 members of the Board visited 25 Congressional offices to              |  |  |  |  |
|          | educate Representatives, Senators, and their staffs about the role of an infection preventionist, and        |  |  |  |  |
|          | ask for their support for APIC priority issues   |  |  |  |  |
| 10/4/23  | O&M Halyard Resumes Sales of N95s  |  |  |  |  |
|          | O&M Halyard announced that it is resuming sales and shipments of HALYARD* N95 products.                      |  |  |  |  |
|          | Particle filtration test failures, which resulted in a voluntary recall, have been corrected and tested      |  |  |  |  |
|          | and reviewed by NIOSH and FDA. Read more for a list of specific models covered by this                       |  |  |  |  |
|          | announcement.  |  |  |  |  |
| 9/20/23  | NIOSH Updated Certified Equipment List   |  |  |  |  |
|          | NIOSH has updated and reformatted its Certified Equipment List. This tool can be used to find                |  |  |  |  |
|          | NIOSH Approved <sup>®</sup> respirators and allows for quick searches for identifying respirators of current |  |  |  |  |
|          | interest. NIOSH encourages users to update their bookmarks to point to the new Certified                     |  |  |  |  |
|          | Equipment List page.   |  |  |  |  |
| 8/30/23  | CDC COCA News: Outbreak of Antifungal-Resistant Ringworm Infections  |  |  |  |  |
|          | The CDC Clinician Outreach and Communication Activity (COCA) group reports outbreaks of                      |  |  |  |  |
|          | antifungal-resistant ringworm infections have been identified by public health officials in New York         |  |  |  |  |
|          | City, as well as several other U.S. states, Canada, Asia, and Europe. Although ringworm is usually a         |  |  |  |  |
|          | minor ailment that can be treated with topical antifungal medications, some current outbreaks are            |  |  |  |  |
|          | caused by Trichophyton indotineae, a fungus that is resistant to first-line ringworm treatments.             |  |  |  |  |
|          | Read more about CDC recommendations for clinicians.  |  |  |  |  |
